REALM FS605
Presidential Series

The Foremost in Luxury Travel

FORETRAVEL
MOTORCOACH

The cutting edge design of the REALM Presidential Series sets it apart from every other luxury motor coach on the market today. Rivalled only by the high-end automotive world, the REALM Presidential Series exudes luxury and refinement.

Meticulously designed front grille, headlights accents and intricate fiberglass cap design

Beautifully designed caps with exceptional attention to detail & styling at every curve

A customizable LED under-coach lighting system adds a distinctive visual signature with adjustable colors and lighting effects

Integrated LED front accent lighting enhances the coach's presence with a refined design that is unmistakably Foretravel.

Opulent interior decors, leathers, cabinets and ultra high-end quartz countertops

***The Foretravel REALM Presidential Series
perfectly combines power, prestige and performance!***

FORE-SLIDE

The REALM Presidential Series features pneumatic slide-out seals that create an airtight seal around the entire perimeter of each slide-out room, regardless of slide position. An integrated hydraulic drop-floor system provides a true flat floor when the slides are extended, while also maintaining a flat floor when they are retracted. You won't find interior carpet lips, exterior silicone beads, exposed pop rivets, visible screws, plastic moldings, or intrusive slide-out mechanisms that consume valuable storage space. Instead, every detail has been engineered to deliver exceptional fit, finish, functionality, and long-term durability. It's one more example of the uncompromising craftsmanship that defines the REALM Presidential Series.

Flat-Floor Rear Bath
One continuous floor. No compromises.

REALM Presidential Series Safety far exceeds the industry norm

Highlights include:

- Spartan Advanced Protection System®
- Automatic traction control
- OnGuard collision mitigation system
- Electronic stability control
- All-wheel disc brakes
- Tire pressure sensor monitoring system
- "Premiere Steer" steering assist system
- Haptic warning driving chair
- Delta Mobile Blind Spotter™

Welded Steel Superstructure
Engineered for lasting strength, structural integrity, and confidence on the road.

TYRON's® Bead-Lock Wheel Safety Bands

Premiere Steer™

Mobile-eye® Collision Avoidance System

Rear Exit Door

Fogmaker Fire Suppression System for the engine

Standard features on the NEW 2027 REALM Presidential Series

Premiere Steer™ Steering Column Assist System

The Premiere Steer™ Steering Column Assist System is an advanced, speed-sensitive, electronic steering system that allows drivers to adjust steering effort for improved comfort and control. It reduces driver fatigue by providing a customized steering feel, enhancing precision during travel.

Key Features of the Premiere Steer System

Proportionate Effort:

The system automatically adjusts steering resistance based on the speed of the motorcoach.

Customizable Comfort:

It allows drivers to adjust the steering feel to their preferred comfort level.

Enhanced Stability:

Designed to make maneuvering easier.

Integrated Technology:

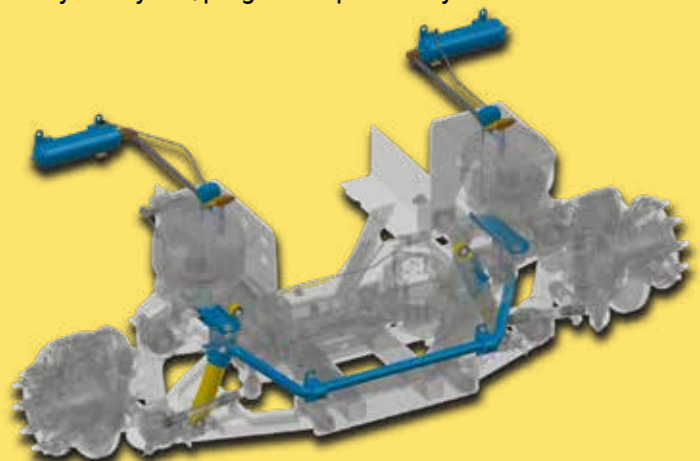

Paired with a SMART steering wheels that features integrated radio controls.

Foretravel Motorcoach, Patent Pending Performance Choice™ ride and handling enhancement feature are standard on the 2027 Realm Presidential Series. The system improves ride, handling, stability and safety for different road and weather conditions and places the driver in control. In Sport mode the ride is tighter and firmer while in Touring mode it is softer and smoother. Switching between modes is as easy as pressing the driver-operated switch. This feature is exclusive to Foretravel's Realm and Presidential models.

Major System Components Included:

- Anti-Roll Bar (ARB): Improved roll control in lateral events such as corners, cross winds, or accident avoidance. Approximate 13% reduction in cornering roll rate.
- Two auxiliary air-spring ping tanks: Reduces spring rate, which improves ride and reduces cabin noise. Approximate 18% reduction in harshness.
- Two tank/spring air control valves
- Custom tuned Bilstein shocks: Optimized dampers to provide excellent body control on all road conditions.
- Electronic ride control mode switch: Allows system to switch in real time between Touring and Sport modes – the driver can choose the operation mode based on driving conditions.
- 2 yr Warranty (parts and labor)
3rd yr sway bar/ping tanks parts only

"Bird's Eye View" coach monitoring system for the absolute ultimate in coach visibility!

- Eliminates "Danger Zones" from all sides
- High resolution camera images displayed
- Easy-to-follow guidelines while backing up
- Multiple single camera views around vehicle
- Triggered single camera views around vehicle
- Toggled views for any single camera

Experience a new standard of confidence and control with an advanced multi-camera vision system designed to elevate both safety and ease of operation. Engineered to effectively eliminate blind spots—removing "danger zones" from every angle—this system delivers crisp, high-resolution camera imagery for exceptional clarity in any driving or maneuvering scenario.

Intuitive, easy-to-follow on-screen guidelines provide seamless assistance while backing, ensuring precise positioning with minimal effort. Multiple camera perspectives can be accessed at any time, offering a comprehensive view around the vehicle, while intelligently triggered camera displays respond in real time to driving conditions. For added convenience, individual camera views can also be manually selected and toggled, giving you complete visual command exactly when you need it.

WiFi Ranger multi source router paired with a Starlink Performance dish.

URC Mobile 2.5 is the primary control application for the URC Total Control 2.0 home automation system. It allows users to manage entertainment, lighting, security, and climate settings from their mobile devices

Vegatouch Mira is a Bluetooth-based RV control system from Firefly Integrations that allows users to manage lighting, HVAC, slides, and tank levels from a smartphone or tablet up to 90 feet away.

SilverLeaf Electronics provides comprehensive RV automation and monitoring systems, used in high-end diesel pushers to control electrical, climate, and plumbing systems through touchscreen panels (HMS) and the RV-C network. Supporting features like generator autostart, tank monitoring, slide-out control, and detailed engine diagnostics

VersiControl by ITC is a smart RGB(W) lighting control system designed for marine and RV applications, enabling users to manage lighting via Bluetooth through a smartphone app. Supporting multiple zones, color customization, fades, and chasing modes, with options for standard or addressable LED lighting.

Exclusive to REALM Presidential is the Spartan **K4** 605 chassis.

The K4605 is not only massive in stature, but boasts a best-in-class 20,000 lb. Towing Capacity, Independent Front Suspension, Cummins 605HP diesel engine, Torqued-Box Structural Frame, the **Spartan Advanced Protection System** & passive steering rear tag axle for incomparable handling and maneuverability. Once behind the wheel of a **Realm Presidential Series**, you will instantly realize that this is the pinnacle of luxury motor coach driving performance.

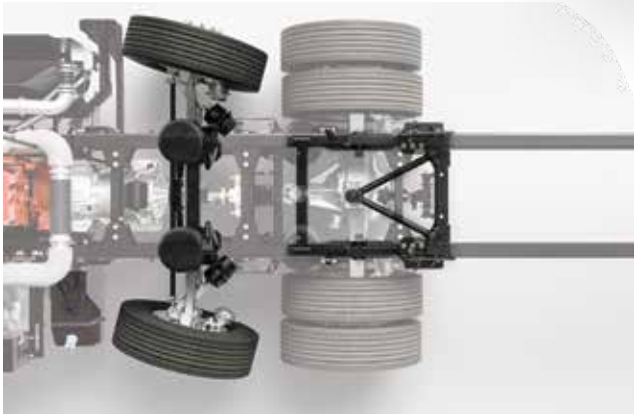

Independent Front Suspension

The independent front suspension is computer analyzed and custom tuned to provide optimal comfort and control.

Passive Steer Tag Axle

Featuring OnGuardACTIVE™

Spartan's Advanced Protection System® (APS), is the industry's first comprehensive set of RV-specific safety features designed to provide additional protection, security, and value to coach owners so you can focus on the road ahead.

Additional Features Include:

- Collision Mitigation System with Adaptive Cruise Control.
- Spartan Safe Haul™ (industry's only factory-chassis integrated air supply for tow vehicle brake systems).
- A 17 degree rear wheel cut means you can navigate the twists and tight spaces of RV parks and parking lots with greater confidence.
- Backing up your coach is hassle-free with the tag axle auto-alignment system. Straightening and locking the tag axle for precise maneuvering control.

The **LV7** is the pinnacle of luxury coach design, prioritizing both elegant entertaining and uncompromising comfort. Designed for those who refuse to compromise on space or refinement, this bath-and-a-half layout features a residential-inspired master suite that serves as a true private retreat. At the heart of the suite, a power-adjustable king bed delivers personalized comfort at the touch of a button. The ensuite is equally impressive, featuring dual master vanities, a spacious shower, and a private rear water closet that enhances both privacy and convenience. Every detail of the LV7 has been thoughtfully designed to combine grand proportions with residential luxury, delivering a first-class ownership experience that sets a new standard for the modern luxury motorcoach.

Presidential Series • LUXURY VILLA 7

Featured in Dover Décor

The **LVBS** is a masterfully appointed dual full-bath floorplan with a dedicated bunk suite, designed for families who expect uncompromising luxury without sacrificing comfort or sophistication. Every detail has been thoughtfully engineered, from the seamlessly concealed power-lift living room television to the integrated washer and dryer combination, the premium Aqua-Hot 600D hydronic heating system, and the precision-engineered Mach 5 water pump.

The private bunk suite provides a first-class retreat for family and guests alike. Generously sized bunks feature individual LED televisions with Blu-ray entertainment, soft ambient lighting, personal climate controls, and conveniently located charging stations. Every appointment has been carefully selected to create a private space that is as comfortable as it is refined.

The rear master suite continues the residential experience with a luxurious Kohler bathtub, spacious shower, and elegant finishes throughout, delivering the comfort and privacy expected of a flagship luxury motorcoach.

Presidential Series • LUXURY VILLA BUNK SPA

Featured in Crown Décor

The **LVB** is an elegantly appointed dual full-bath bunk floorplan, thoughtfully designed for those who demand elevated comfort without compromising luxury. Distinctive features include a seamlessly concealed power-lift living room television, dual walk-in showers, a stacked washer and dryer, the premium Aqua-Hot 600D hydronic heating system, and a precision-engineered Mach 5 water pump.

The private bunk suite provides a first-class retreat for family and guests alike. Spacious bunks are appointed with individual LED televisions, Blu-ray entertainment, ambient indirect lighting, dedicated climate controls, personal charging stations, and a host of additional premium amenities. Every detail has been thoughtfully integrated to deliver comfort, privacy, and convenience for every passenger.

The **LV2** redefines luxury in a bath-and-a-half floorplan, blending sophisticated design with elevated functionality. The modular living room offers the flexibility to match your lifestyle with a sofa featuring motorized end recliners, a sofa with dual chaise lounges, or premium theater-style seating. Enjoy a power-lift LED TV in the living area, along with the comfort and versatility of an extendable sofa and the convenience of a stacked washer and dryer. The private master suite is a true retreat, featuring a dedicated water closet, dual vanities, an expansive wardrobe, and a spa-inspired shower with multiple body jets. A power-lift LED TV in the bedroom provides the perfect finishing touch to this exceptional living experience.

Presidential Series • LUXURY VILLA 2

**Featured in
Sovereign Décor**

The **LV3** is a bath-and-a-half floorplan designed to combine residential comfort with thoughtful functionality. Features include a power-lift bedroom LED television, an expansive tiled shower, a dual-sink vanity, and a cedar-lined wardrobe complete with a built-in chest of drawers that reflects Foretravel's attention to craftsmanship and detail.

The living area is centered around an oversized fireplace with an integrated LED television, complemented by residential furnishings that create a warm, inviting atmosphere. Every element has been carefully selected to provide a comfortable and refined living experience, whether traveling across the country or enjoying an extended stay.

SPARTAN PremierCare PLAN

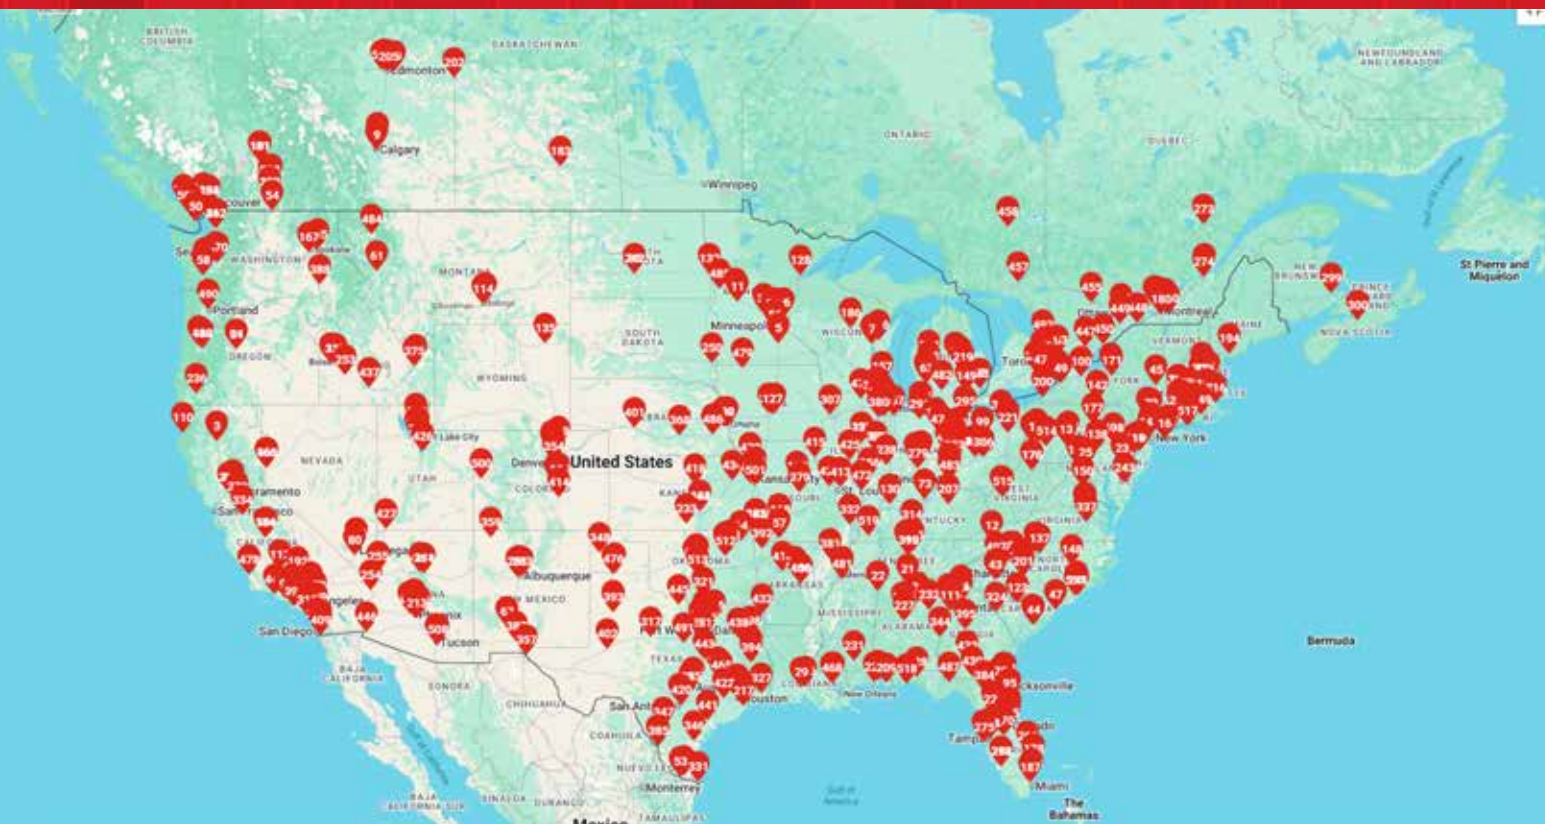

Freedom To Roam. Worry-Free.

Now one of the most reliable chassis on the market has a maintenance plan to match. PremierCare is a worry-free guarantee for up to the first three years* of ownership. Owners can enjoy scheduled maintenance, roadside assistance, and hundreds of North American service centers. The **Spartan PremierCare plan** covers routine maintenance services, which protect your chassis, and can be performed with an annual visit to a Spartan authorized service center. Travel with confidence knowing all service and maintenance needs will be performed by a trained professional.

Nationwide Foretravel & Spartan Service Network

Feel free to explore anywhere - with service centers throughout the U.S. and Canada, Foretravel and Spartan are always close by. We believe the premier chassis deserves a premier maintenance plan.
